

Spiez, 13 October 2020

Approval

Approval ID: BZS D 19-601

Tested component: Hilti heavy-duty anchor
HSL4
M8 to M24

Approved supplier: Hilti Schweiz AG, 8134 Adliswil

Valid until: 31 October 2030

According to the results of the practical tests and the assessment of the technical documentation, the aforementioned component meets the requirements set by the Federal Office for Civil Protection. It is thus approved for use in Swiss Protection & Support shelters and facilities.

The present Approval is only valid when signed by both the approved supplier and the Certification Office FOCP.

Federal Office for Civil Protection

Daniel Jordi
Head of CBRNe Protection Systems

Approved supplier

Hilti Schweiz AG,
8134 Adliswil

Spiez, 29.10.2020

Adliswil, 23.10.2020

The present approval is based on the Federal Office for Civil Protection technical directives "Quality Management of Tested Components for Use in Protection & Support Shelters and Facilities" 1750-026 of 15 May 2014.

The approved supplier is responsible for the overall quality of the product. The FOCP will test the components chiefly to ascertain that they meet its specific construction requirements.

The present approval is based on the following documents:

- Assessment Report (enclosed) N° 1339.4 dated 11 Sept 2020
- Test Report (enclosed) N° AGEW-2020-022 dated 12 June 2020
- European Technical Assessment N° ETA-19/0556 dated 20 Jan 2020

By signing the present certificate, the approved supplier recognises the legal obligations set out in the FOCP technical directives "Quality Management of Tested Components for Use in Protection & Support Shelters and Facilities" 1750-026 of 15 May 2014.

Please note:

- The approval relates exclusively to the requirements contained in the established normative documents on EMP protection and shock resistance set out in the FOCP technical directives "Quality Management of Tested Components for Use in Protection & Support Shelters and Facilities" 1750-026 of 15 May 2014.
- The approved supplier bears sole responsibility (product liability) for compliance with other technical specifications, with generally binding and product-related regulations, as well as with technical, safety and environmental standards.
- In the event of abuse or deceptive use of the present approval, it will be unconditionally withdrawn in accordance with the aforementioned directives.
